Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

Version 4.4

This is an addendum to Utah Leads Together 2.0. The Governor’s Office of Management and Budget and the Utah Department of Health, with assistance from Leavitt Partners, have developed recommendations to support the roadmap for reactivation of the Utah economy while stabilizing public health.

\(^2\) Essential travel means to: safely relocate by an individual whose home or residence is unsafe, including individuals who have suffered or are at risk of domestic violence, or for whom the safety, sanitation or essential operations of the home or residence cannot be maintained; care for a family member or friend in the same household or another household, including transporting family members or friends; transport a child according to existing parenting time schedules or other visitation schedules pertaining to a child in need of protective services; care for pets, including travel to a veterinarian; seek emergency services; obtain medications and medical services; donate blood; obtain food, including delivery or carry-out services, beverages (alcoholic and non-alcoholic), and other grocery items, gasoline, supplies required to work from home, and products needed to maintain the safety, sanitation, and essential operation of homes and residences, businesses, and personally owned vehicles, including automobiles and bicycles; perform work if you cannot telework; transport/deliver essential goods; engage in recreational and outdoor activities; laundromats and dry cleaners; return to a home or place of residence.

# Tiered Guidelines for High-Risk Individuals

High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease.

## High Risk
- Face coverings worn at all times in public setting
- Limit travel to only essential travel, as defined on page 3; if telework is not possible, limit travel to work-related travel only
- Limit visiting friends or family without urgent need
- Limit physical interactions with other high-risk individuals, except for members of your household or residence
- Limit attending gatherings of any number of people outside your household or residence
- Do not visit hospitals, nursing homes, or other residential care facilities

## Moderate Risk
- Face coverings worn at all times in public setting
- Limit travel to only essential travel, as defined on page 3; if telework is not possible, limit travel to work-related travel only
- Limit visiting friends or family without urgent need
- Limit physical interactions with other high-risk individuals, except for members of your household or residence
- Limit attending gatherings of any number of people outside your household or residence
- Do not visit hospitals, nursing homes, or other residential care facilities

## Low Risk
- Face coverings worn in settings where other social distancing measures are difficult to maintain
- For any travel, use appropriate precautions; avoid high-risk areas
- Telework if possible, if not, maintain 6-foot distance
- When visiting friends or family, wear face coverings when within a 6-foot distance
- Limit physical interactions with other high-risk individuals, except for members of your household or residence
- Social interactions in groups of 20 or fewer people outside your household or residence
- Limit visits to hospitals, nursing homes, or other residential care facilities

## New Normal Risk
- For any travel, use appropriate precautions; avoid high-risk areas
- Limit physical interactions with other high-risk individuals, who are symptomatic
- Interactions allowable in larger groups, with strict hygiene measures and symptom monitoring
- Do not interact with symptomatic individuals

## Actions by High-Risk Individuals
- Avoid physical interactions with high-risk individuals as much as possible
- No visits to hospitals, nursing homes, and other residential care facilities
- Targeted testing for those working with high-risk individuals

## Interactions with High-Risk Individuals
- Avoid physical interactions with high-risk individuals as much as possible
- No visits to hospitals, nursing homes, and other residential care facilities
- Targeted testing for those working with high-risk individuals

## Households with High-Risk Individuals
- For those living with a high-risk individual, household members should conduct themselves as if they are a significant risk to the high-risk individual
- Wash hands before interacting with high-risk household members, including before feeding or caring for the person
- If possible, provide a protected space for high-risk household members, and ensure all utensils and surfaces are cleaned regularly
- High-risk populations should take extra precaution to avoid close contact with multiple people, including having the same caretakers whenever possible
- Those who are, or work with, vulnerable populations should undergo daily screening/symptom monitoring and should be tested if they develop COVID-19 symptoms
- Consider providing additional protections or more intensive care for high-risk household member
- Additional CDC guidance for high-risk populations can be found [here](https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/what-you-can-do.html)

</table>

### Use of Face Coverings

- Face coverings (e.g., mask, scarf, gaiter, bandana) worn in public settings where other social distancing measures are difficult to maintain
- Change or launder cloth face coverings routinely
- Individuals should stay 6 feet away from others even when wearing a face covering
- Cloth face coverings should not be placed on young children under the age of 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance

### Family Gatherings (e.g., Funeral, Wedding, Religious Ceremonies)

- Follow all social guidelines outlined on page 5
- Only members of the same household or residence may attend
- Small group of close family and friends may attend, as long as they have been following social distancing and hygiene practices for two weeks
- Medium sized group that enables all social distancing guidelines to be followed
- Follow all social guidelines on page 5

### Children, Including Playgrounds

- Follow all social guidelines outlined on page 5
- Do not arrange or participate in in-person playdates or similar activities
- Do not allow children on public playground
- Do not allow children on public playground
- Increased cleaning and hygiene regimen
- Limit child interaction with other children in public spaces (e.g., playground equipment)
- Follow all social guidelines outlined on page 5
- All symptomatic children should stay home from school and childcare, and will be sent home if exhibiting any symptoms
### K-12 Schools

- Follow all guidelines outlined on page 5 & page 9
- Do not attend school outside the home
- Soft closure of schools; distance learning only
- Schools may send home food

### Driver's Education, specifically on Range and Roads

- Not in operation

**Outdoor Recreation, Youth Outdoor Sports, including Parks, Playgrounds, Pavilions, Parades**

- Follow all guidelines outlined on page 5 & page 9
- Remain at least 6 feet apart from individuals from other households while engaging in outdoor activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
- Do not touch high-touch surfaces, including handrails, trail signs, maps
- Do not congregate at trailheads, parks, or other outdoor spaces
- Do not engage in close-contact or team sports
- Do not travel to, or participate in activities at, any of the following locations:
  - Places of public amusement or public activity
  - Public swimming pools
  - Gyms, and fitness centers
- Do not go to or engage in activities at a state park located outside the county in which you reside (the availability of national parks will be determined in consultation with the National Park Service and the county in which the park is located)
- Follow all guidelines outlined on page 5 & page 9
- Remain at least 6 feet apart from individuals from other households while engaging in outdoor activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
- Do not touch high-touch surfaces, including handrails, trail signs, maps
- Do not congregate at trailheads, parks, or other outdoor spaces
- Do not engage in sporting activities requiring teammates or opponents to be closer than 10’ from one another
- Skills development and conditioning activities are allowable under social distancing guidelines
- Staff must disinfect all equipment after each use
- Follow guidelines for state and national parks
- Follow all guidelines outlined on page 5 & page 9
- Remain at least 6 feet apart from individuals from other households while engaging in outdoor activities (e.g., walking, hiking, running, bicycling, hunting, fishing, etc.)
- Avoid contact with high-touch surfaces, including handrails, trail signs, maps
- Do not congregate at trailheads, parks, or other outdoor spaces
- Distribution of promotional items, candy, food items, etc. during spectator events must be distributed in a manner that does not promote congregating
- Participants (e.g., players, performers, actors) should have their symptoms checked prior to each competition or practice
- Follow guidelines for state and national parks
- Recreation camps may operate in accordance with existing policy and health guidelines
- Follow all guidelines outlined on page 5 & page 9
- Resume activities, follow hygiene standards

## Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

**High Risk**

- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

**Moderate Risk**

- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

**Low Risk**

- Dine-in service and bars are opened, with tables arranged so there is appropriate distance between diners. Increased hygiene practices for customers and staff
  - Follow all employer guidelines outlined on page 9
  - For dine-in services:
    - Dine-in services, including buffets and bars, may be open under the following requirements outlined in Appendix A
    - For takeout services:
      - Symptom checking of employees
      - Staff wear face coverings
      - Staff must sanitize hands between handling payment options and food/containers
  - Encourage contactless payment; if not possible, disinfect transaction terminal between customers
  - Staff must sanitize hands between handling payment options and food/containers
  - When delivering food, drivers use hand sanitizer before passing delivery to customers and use disposable containers/packaging that do not need to be returned
  - Employers provide personal protection equipment such as face coverings, hair nets, gloves, overalls
  - Customers voluntarily provide contact information to assist with contact tracing efforts
  - Staff wear face coverings
  - Staff must sanitize hands between handling payment options and food/containers

**New Normal Risk**

- Dine-in restaurants operating under proper safety precautions for staff and customers

<table>

---

7 Dine-in services not recommended during moderate risk conditions. However, if dine-in services are opened, the following precautions should be taken.
## Phased Guidelines for the General Public and Businesses to Maximize Public Health and Economic Reactivation

### High Risk

<table>
<thead>
<tr>
<th>Pharmacy, Convenience Stores</th>
<th>Monitor patrons and employees for symptoms. Customers and employees wear face coverings</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Follow all employer guidelines outlined on page 9</td>
</tr>
<tr>
<td></td>
<td>• Both customers and employees wear face coverings⁸</td>
</tr>
<tr>
<td></td>
<td>• Maintain signage to remind and help individuals stand at least 6 feet apart, including outside when in line, and in store check-out lines</td>
</tr>
<tr>
<td></td>
<td>• Assign an employee to disinfect carts and baskets after each use</td>
</tr>
<tr>
<td></td>
<td>• Maximum number of patrons must be such that a 6-foot distance between patrons and employees can be easily maintained (1 person per 100 square feet)</td>
</tr>
<tr>
<td></td>
<td>• Make hand sanitizer readily available to customers and employees (e.g. at checkout counters and entrances, etc.)</td>
</tr>
<tr>
<td></td>
<td>• Limit purchase quantities on certain goods selling out quickly; this will help maintain ability to meet needs of patrons and limit crowds and lines</td>
</tr>
<tr>
<td></td>
<td>• Set an established window of time for high-risk individuals to come in without pressure from crowds</td>
</tr>
<tr>
<td></td>
<td>• Staff may only come closer than 6 feet to other staff and customers when accepting payment or delivering goods or services if wearing face covering</td>
</tr>
<tr>
<td></td>
<td>• One-way aisles to support physical distancing</td>
</tr>
<tr>
<td></td>
<td>• Discourage bringing kids or strollers into stores when possible to allow as much space as possible in aisles</td>
</tr>
<tr>
<td></td>
<td>• Consider installing a clear plastic partition between cashier and customer where it is not possible to maintain 6 feet of distance</td>
</tr>
<tr>
<td></td>
<td>• Deliver products through curbside pick-up or delivery</td>
</tr>
</tbody>
</table>

### Moderate Risk

<table>

### New Normal Risk

<table>
<thead>
<tr>
<th>Specific Guidance for Grocery &amp; Pharmacy</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Separate order and delivery areas to keep customers from waiting too long in confined areas together</td>
</tr>
<tr>
<td>• Self-serving food areas follow guidelines on page 20; does not include fresh produce</td>
</tr>
<tr>
<td>• Only make bulk items available if they are individually packaged</td>
</tr>
<tr>
<td>• Allow individuals to bring their own reusable bags</td>
</tr>
<tr>
<td>• If possible, waive prescription delivery fees for high-risk individuals</td>
</tr>
</tbody>
</table>

⁸ Face coverings are extremely important in the retail setting, as customers are passing one another with high frequency.
### High Risk
- Make regular announcements to remind customers to follow physical distancing guidelines

**Specific Guidance for Grocery & Pharmacy**
- Separate order and delivery areas to keep customers from waiting too long in confined areas together
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees

### Moderate Risk
- Make regular announcements to remind customers to follow physical distancing guidelines

**Specific Guidance for Grocery & Pharmacy**
- Separate order and delivery areas to keep customers from waiting too long in confined areas together
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees

### Low Risk
- Make regular announcements to remind customers to follow physical distancing guidelines

**Specific Guidance for Grocery & Pharmacy**
- Separate order and delivery areas to keep customers from waiting too long in confined areas together
- Prevent people from self-serving any food items that are ready to eat and are not prepackaged; does not include fresh produce
- Only make bulk items available if they are individually packaged
- Do not allow individuals to bring their own bags, mugs, or other reusable items from home
- If possible, waive prescription delivery fees

### New Normal Risk
- Industry open with precautions for staff and guests as outlined in general guidelines
  - Follow all employer guidelines outlined on page 9

### Hospitality, Tourism & Accommodations
- Limited operations of this industry. Hotels and other accommodations take extreme safety precautions for both staff and guests
  - Follow all employer guidelines outlined on page 9
  - Staff and guests wear face coverings
  - Maintain signage to remind groups to stand at least 6 feet apart and avoid congregating in common areas
  - Social distancing maintained in all common areas or meeting rooms
  - Digital check-in and checkout encouraged
  - Consider installing plexiglass partition in areas coming into close contact with guests (e.g. registration, concierge, valet desks)
  - Symptomatic guests should stay in their room and wear a face covering anytime they leave the room
  - Consider designating one staff member to attend to sick guests
  - Launder all exposed linens and cleaning supplies separately
  - Pools follow guidelines on page 6
  - Fitness centers follow guidelines on page 12
  - Restaurants follow guidelines on page 16

- Precautions taken with shared spaces; additional caution is taken with extra sanitization of all areas of the property
  - Follow all employer guidelines outlined on page 9
  - Face coverings worn in settings where other social distancing measures are difficult to maintain
  - Maintain signage to remind groups to follow social distancing guidelines and avoid congregating in common areas
  - Digital check-in and checkout encouraged
  - Symptomatic guests should stay in their room and wear a face covering anytime they leave the room
  - Consider designating one staff member to attend to sick guests
  - Guest room cleaning should include a complete change of towels, linens, bedding, and guest consumable items while all hard surfaces and high-touch areas are completely cleaned and sanitized

- Precautions taken with shared spaces; additional caution is taken with extra sanitization of all areas of the property
  - Follow all employer guidelines outlined on page 9
  - Face coverings worn in settings where other social distancing measures are difficult to maintain
  - Maintain signage to remind groups to follow social distancing guidelines and avoid congregating in common areas
  - Digital check-in and checkout encouraged
  - Symptomatic guests should stay in their room and wear a face covering anytime they leave the room
  - Consider designating one staff member to attend to sick guests
  - Laundry all exposed linens and cleaning supplies separately
  - Pools follow guidelines on page 6
  - Fitness centers follow guidelines on page 12
  - Restaurants follow guidelines on page 16

- Industry open with precautions for staff and guests as outlined in general guidelines
  - Follow all employer guidelines outlined on page 9
### Indoor Arenas

#### High Risk

- disinfected with an EPA-registered chemical disinfectant
- When possible, rooms should remain vacant for 48 hours after check-out and prior to cleaning
- Launder all exposed linens and cleaning supplies separately
- Food should be served in a takeout-style (grab and go) manner; no buffet-style dining
- Swimming pools, gyms and fitness centers closed
- Provide guests with their own sanitation solutions or wipes to instill guest confidence (e.g., alcohol wipes for remote controls or shared surfaces)

#### Low Risk

- Consumable items while all hard surfaces and high-touch areas are completely disinfected with an EPA-registered chemical disinfectant
- When possible, rooms should remain vacant for 48 hours after check-out and prior to cleaning
- Launder all exposed linens and cleaning supplies separately
- Provide guests with their own sanitation solutions or wipes to instill guest confidence (e.g., alcohol wipes for remote controls or shared surfaces)
- Pools follow guidelines on page 6
- Fitness centers and follow guidelines on page 12
- Restaurants follow guidelines on page 16

#### Moderate Risk

- Events, Cultural Arts & Entertainment (including Sporting Events, Concerts, Rodeos, Convention Centers, Theatres, Museums, Zoos, Aquariums, Aviaries, Botanical Gardens, Libraries, Indoor Arenas)

</tr>
</tbody>
</table>

#### New Normal Risk

- In-person operation of this industry is allowable for large groups. Mass gatherings follow proper safety procedures and precautions for monitoring symptoms
## High Risk
- Encourage contactless payment; disinfect between transactions and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Electronic tickets and playbills encouraged in place of paper

### Concessions:
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

## Moderate Risk
- Limit the number of people in a confined area to enable adequate distancing at all times
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g. museums, zoos, aquariums, aviaries, botanical gardens)
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Dedicated staff for sanitizing high-touch areas

### Concessions:
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

## Low Risk
- Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits (e.g. museums, zoos, aquariums, aviaries, botanical gardens)
- Distribution of promotional items, candy, food items, etc. during spectator events must be distributed in a manner that does not promote congregating
- Congregating at any point is not allowed
- Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations
- Participants (e.g., players, performers, actors) in events should have their symptoms checked
- Dedicated staff for sanitizing high-touch areas

### Concessions:
- Serving and seating protocols consistent with restaurant guidance
- Maintain 6-foot distancing for all lines
- Encourage contactless payment
- To the extent reasonable, serve grab-and-go food items
- Any concessions/restaurant seating is compliant with restaurant dine-in recommendations

## New Normal Risk
- Industry open under strict hygiene protocols.
- Service provider and customer wear face coverings.
- Meticulous monitoring of symptoms

### Personal Services
- Extreme limitations of this industry
  - Follow all employer guidelines outlined on page 9
  - Business that rely on close human interaction encouraged not to stay open
  - Symptom checking in all interactions
  - Face coverings worn by both service provider and client

### Industry open with strict hygiene regimen and symptom monitoring
- Follow all employer guidelines outlined on page 9
- Both service provider and client wear face coverings. Exception given when mask interferes with service
- Symptom checking of all staff at the beginning of each shift, with a log that can be made available for inspection by health department
- Customers must have their symptoms checked before services are rendered
- Screen clients upon entering the facility with a questionnaire asking about symptoms, travel, and any sicknesses in the home

General Guidelines for Employers

Best Practices for Employers

- Those who are, or work with, high-risk populations, should undergo daily screening/symptom monitoring, and be tested if they begin to experience COVID-19 symptoms. High-risk populations should take extra precautions to avoid close contact with multiple people.
- Use online conference, email, or telephone in place of in-person meetings, even when people are in the same building.
- Employees and customers should not congregate in groups; if your business involves a waiting area, customers should wait outside or in their cars.
- Encourage contactless pay options if possible; otherwise immediately disinfect transaction equipment.
- Make regular announcements to remind employees and customers to follow distancing guidelines. Use floor markings to mark appropriate physical distance where appropriate.
- Encourage digital files rather than paper formats (e.g., documentation, invoices, inspections, forms, agendas).
- Consider what reserve supplies may be necessary to obtain (e.g., cleaning supplies, gloves or other protective equipment).
- Establish and maintain open dialogue with local communities, including key vendors and suppliers, exploring contingencies and sharing appropriate decisions about foodservice, transportation, and other services.
- Identify a workplace coordinator who will be responsible for COVID-19 issues and their impact in the workplace.
- If relevant, update emergency communication plan with key contacts and backups, chain of communications, and responsible for COVID-19 separately.
- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., elevator buttons, workstations, countertops, handrails, door knobs, break rooms, bathrooms, common areas), either twice a day or after each use. Keep a log book of cleaning regimen. Those cleaning should:
  - Wear gloves
  - Prior to disinfecting, clean surfaces with soap and water if soiled
  - Use EPA-approved disinfectant, industrial cleaner, diluted bleach, or alcohol solutions
  - Provide disposable disinfecting wipes for employee use on high-touch surfaces; provide no-touch trash bins.
  - Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately.
  - Make hand sanitizer, soap and water, or effective disinfectant readily available. Provide pop-up hand washing stations or facilities where necessary (e.g. open houses, construction sites).

Cleaning & Hygiene Guidelines for Employers

- Promote etiquette for coughing, sneezing, and hand washing; avoid touching face, especially eyes, nose, and mouth; place posters that encourage hand and respiratory hygiene.
- Face coverings should be worn by employees and patrons, especially when difficult or impossible to maintain 6-foot distance.
- Ensure adequate air circulation and post tips on how to stop the spread of germs.
- When possible, discourage sharing of work tools and equipment.
- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., elevator buttons, workstations, countertops, handrails, doorknobs, break rooms, bathrooms, common areas), either twice a day or after each use. Keep a log book of cleaning regimen. Those cleaning should:
  - Wear gloves
  - Prior to disinfecting, clean surfaces with soap and water if soiled
  - Use EPA-approved disinfectant, industrial cleaner, diluted bleach, or alcohol solutions
  - Provide disposable disinfecting wipes for employee use on high-touch surfaces; provide no-touch trash bins.
  - Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder items that have come in contact with COVID-19 separately.
  - Make hand sanitizer, soap and water, or effective disinfectant readily available. Provide pop-up hand washing stations or facilities where necessary (e.g. open houses, construction sites).

Employers Monitoring Symptoms

- Employees who are sick or who appear to have COVID-19 symptoms should be separated from other employees/customers immediately and sent home; immediately clean and disinfect areas the sick employees visited.
- Train managers/leadership to spot symptoms of COVID-19 and to be clear on relevant protocols.
- Monitor employee symptoms, especially fever (100.4 degrees Fahrenheit/38 degrees Celsius, or above). If employees take simple medications such as acetaminophen, ibuprofen, or aspirin, they should take temperature beforehand.
- Do not allow employees to come to work if they feel sick; create or maintain non-punitive leave policies so employees do not feel pressured to come to work if they are sick. Remind employees to report any illness to a manager, especially if sick with fever, cough, trouble breathing, sore throat, muscle aches and pains, sudden changes in smell or taste.
- If an employee is confirmed COVID-19 positive, employers should inform close contact employees while maintaining confidentiality; close contact employees should self-monitor for symptoms for 14 days.

9 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains.

Appendix A: Guidelines for Dine-in Restaurants Open in Moderate and Low Risk

Operational Practice

- Limit tables to groups of 10, preferably members of the same household
- Groups of patrons at a table must maintain a distance of 6 feet from patrons of other parties at all times. Either move tables or mark off tables not to be used
- In waiting areas, a 6-foot distance must be maintained between parties, whether indoor or outdoor
- Maintain signage to remind individuals from separate parties to stand at least 6 feet apart; waiting area has floor markers to indicate proper spacing
- Hosts preferably open doors for customers and guide them to their seats to prevent traffic or congregating; hand sanitizer available at door
- Recommendation that upon entry, hosts point guests to signage that includes the following information:
  - Outlines symptoms and encourages that if the patron, or someone they live with, has experienced COVID-19 symptoms, to please order takeout instead
  - Recommendation for high-risk individuals to order takeout/delivery instead of dining in for the protection of that individual
- Manager checks each employee for symptoms before every shift with temperatures taken and asks if any member of the employee’s household has tested positive for COVID-19 in the past 14 days. Log must be kept and available for inspection by the local health officer
- Staff must wear face coverings at all times and perform hand hygiene between interactions with each table
- Cups, lids, napkins and straws must be handed directly to customers by staff
- Do not place utensils on table until patron is seated
- Encourage contactless and non-signature payment; when not possible, card and payment stations must be sanitized after each use. Staff must sanitize hands between handling payment options and food/containers
- Staff avoid touching items that have been placed on the table (menus, plates, utensils, pens, cups, etc.). The table will be cleared by a dedicated staff member once all guests have left
- Dedicated staff member sanitizes the area occupied by customers upon departure including tables, menus, pens, salt and pepper shakers, etc. Consider use of disposable items if necessary
- The restaurant may not operate if PPE, EPA-approved disinfectants and sanitizers, soap, and other necessary cleaning supplies are not available; sanitizer is effective against COVID-19. Chlorine (bleach) at 100-200 ppm is recommended
- Hand sanitizer must be available immediately adjacent to bathrooms
- Close restaurant for cleaning and disinfecting in the morning, afternoon, and evening. Cleaning and disinfecting includes all tables, chairs, door handles, floors, bathrooms, and any high-touch surfaces
- Buffet and self-serve restaurants will provide utensils, cups, plates and other service items only from the counter where food is ordered. None of these items will be accessible to the public. Buffet style restaurants will provide servers who will serve the meals from buffet to limit exposure
- Stagger workstations so employees are not facing one another and are 6 feet apart unless barriers are used, or face coverings are worn
- To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food
- Staff must use gloves when handling ready-to-eat foods (including ice). Gloves are not required when handling foods that have yet to be cooked
- Indoor playgrounds in restaurants remain closed

Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains

High-risk individuals are defined as people 65 years and older, people who live in a nursing home or long-term care facility, people of all ages with underlying medical conditions, including lung disease or moderate to severe asthma, people who have serious heart conditions, people who are immunocompromised (many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications), people with severe obesity, diabetes, chronic kidney disease undergoing dialysis, or liver disease.
Appendix B: Considerations for Faith Groups Returning to In-Person Religious Services

Governor Herbert recognizes the importance of faith groups during these difficult times. Under the Orange (Moderate Risk) and Yellow (Low Risk) Utah COVID-19 Health Risk Status Phased Guidelines, faith groups are able to hold in-person religious services of any size as long as a distance of at least six feet is maintained between household groups. This six-foot distance requirement is the only limit imposed by the Phased Guidelines on the number of people permitted to participate in an in-person religious service.

The following are provided as considerations for faith groups and individuals returning to in-person religious services. These considerations were prepared in consultation with a working group of faith leaders representing the rich diversity of faiths in Utah. These considerations are also consistent with ongoing messaging from the Utah Department of Health and are consistent with the best available medical science.

These considerations are not binding on any faith group and should not be construed as an attempt to regulate religious practices. They are provided as information so that individuals can make decisions to protect themselves and others from COVID-19. Each faith group will decide for itself when to resume in-person religious services.

- Consideration for high-risk individuals:
  - Limit participation in any in-person gatherings, including religious services, of any number of people outside your household group.
  - High-risk individuals include those:
    - aged 65 and older;
    - who live in a nursing home or long-term care facility;
    - with chronic lung disease or moderate to severe asthma;
    - who have a serious heart condition;
    - who are immunocompromised, including:
      - individuals who have recently received cancer treatment, bone marrow transplantation, or organ transplantation;
      - individuals living with HIV or AIDS; and
      - individuals who have experienced prolonged use of corticosteroids or other immune weakening medications;
    - with severe obesity (BMI of 40 or higher);
    - with underlying medical conditions, particularly if not well controlled, including diabetes, renal failure, or liver disease;
    - who smoke; or
    - with hypertension.

- Considerations for all individuals participating in an in-person religious service:
  - Wear a face mask when you cannot maintain a distance of six feet from other individuals from a different household.
  - Do not shake hands with, or otherwise touch, an individual who is not a member of your household group.
  - Avoid high-touch surfaces.
  - Disinfect high-touch surfaces frequently.
  - Wash your hands frequently.
  - Wear a face mask and wear gloves or sanitize hands when preparing food to be consumed by individuals from a different household.
  - Avoid group meals that are not part of the religious service.

- Considerations for faith group leaders organizing an in-person religious service:
  - Implement measures to prevent individuals from congregating in lobbies or meeting areas where a 6-foot distance between household groups is difficult to maintain.
  - Post signage to remind individuals to maintain social distancing when in common areas.
  - Set an established window of time or provide separate entrances for high-risk individuals to enter and exit without pressure from crowds.
  - Provide multiple meeting schedules to accommodate smaller gatherings where social distancing guidelines can be followed.
  - Provide streamed services to households that prefer to participate virtually.
