

# Help us vaccinate

## Bring it home!

We are closer than ever to putting this pandemic behind us.

### Here's how you can help:

- 1 Reach out to your communities to let them know where they can get vaccinated. COVID-19 vaccines are free and widely available at [hundreds of vaccine locations](#) across the state, including for walk-in and after hours appointments.
- 2 Connect with businesses, faith-based leaders, trusted community leaders, and community-based organizations to help get vaccine [events](#) scheduled in your neighborhoods.
- 3 Share your reasons why you chose to get vaccinated on social media and with family and friends. Help address myths and misinformation with facts.

### Partners invited:

- Businesses
- CHWs
- Community-based organizations
- Faith-based leaders
- Healthcare providers
- Local health departments
- Mobile clinics
- Pharmacies
- Utah Homeless Network
- Utah Disability Committee
- and more!
