### Moving to orange

A color-coded health guidance system has been developed by the State of Utah to guide health behaviors for individuals and businesses. Each level of the dial is guided by a rigorous measurement system which can be different by each region, county, city, or community.

#### Strict hygiene and reduced group interactions.

- Follow all employer guidelines (see below)
- Ensure nobody with symptoms enters a job site
- Provide additional hand washing stations; wash or sanitize hands before and after leaving a site
- Wear face coverings and gloves
- Clean and disinfect project sites, including high-touch surfaces and tools frequently
- Share estimates, invoices, and other documentation electronically

#### General Employer Guidelines

Employers exercise extreme caution, with employees working remotely, evaluating workforce concerns, and enacting strategies to minimize economic impact. Businesses that necessitate on-site work should monitor workforce for symptoms and well-being.

- Employers take extreme precautions
- Provide accommodations to high-risk employees
- Employees and volunteers operate remotely, unless not possible
- Symptom checking in business interactions
- Face coverings worn in settings where other social distancing measures are difficult to maintain; ensure that face coverings are available
- Make every possible effort to enable working from home as a first option; where not possible, workplaces comply with distancing and hygiene guidelines
- Minimize face-to-face interactions, including with customers (e.g. utilize drive-thru, install partitions)
• Where distancing and hygiene guidelines cannot be followed in full, businesses should consider whether that activity needs to continue for the business to operate
• Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions
• Require employees to self-quarantine when returning from high-risk areas
• Employers evaluate workforce strategy and concerns and enact strategies to minimize economic impact
• Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

1 Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains
