Utah’s Moderate Risk Phase
What does it mean and what can you do?

Moving to orange
Utah’s social distancing efforts to slow the spread of COVID-19 have been working. Forward progress won’t be instant like flipping a switch. It’ll be more like gradually moving a dial.

A color-coded health guidance system has been developed by the State of Utah to guide health behaviors for individuals and businesses. Each level of the dial is guided by a rigorous measurement system which can be different by each region, county, city, or community.

In every phase, high-risk individuals operate under stricter instructions because they are more likely to suffer severe illness from COVID-19.

General guidelines for individuals:

- **Groups of 20 or fewer**
  - Gathering in groups of 20 while maintaining social distancing.

- **6 FEET**
  - Leave home infrequently, stay 6 feet away from others.

- **Face coverings worn in public settings.**

- **Maintain social distancing during outdoor recreation.**

- **Limit out-of-state travel.**

- **Spacing between immediate households, alternate schedules for smaller gatherings and stream services.**
